

# No time for dullness

**BOLD**  
monkey

**Extravagant design,  
without breaking the bank**

Introducing Bold Monkey: affordable design furniture for the young at heart. We like to think of ourselves as extravagant, fun and just a little bit extra. Design lovers who'll favour the unique over the uniform any day. As well as designing sofas and chairs and tables – we aim to design conversation starters. Trendsetting furniture. In other words, the kind of pieces that are guaranteed to attract attention as soon as your guests step in the door. Think of us as the maximalists of the interior world.

**Furniture as unique as you are**

Our aim is to create pieces that enable our consumers to step outside their comfort zones. To push the boundaries of their style. To have fun with furniture. More is more baby! Stay bold, not beige!

**A Tall Handsome statue**

**limited  
editions**

Alongside our regular collection, we also release limited-edition designs. Depending on the piece, the number of limiteds will usually be capped at around 100 worldwide. We like the idea of a Bold Monkey limited becoming a collectible. Something that's unique to only a handful of people, meaning you get the chance to own something without seeing it everywhere you go. So if you spot a Bold Monkey limited-edition piece you love - don't wait around. Because once it's gone, it's gone.

## chairs

Whether you're looking for a luxe velvet dining chair, a statement-making arm chair or an all-over print chair – we're sure to have a seat that suits your style.

## Sustainable Printing

Sustainability also applies to this Bold Monkey catalogue. Zuiver Group supports the climate initiative of the printing and media industries federations (bvdm) who offer their customers environment-friendly and climate-friendly print products. The Climate Neutral label guarantees climate neutrality, which means that we have calculated the carbon emissions inevitably generated in the process chain, and compensated its emission via recognized carbon offset projects. Projects, cofounded by the WWF too, such as: wind energy in Asia, reduction of smoke emissions and reforestation in Africa and landfill gas in South America.
