10 YEARS ZUIVER

CELEBRATING BY CREATING BETTER

The tenth anniversary of Zuiver, entering a new decade, a new generation of design with pure, fresh, and clean aesthetics. After a decade of Zuiver, we think this is the perfect opportunity to take time to reflect. On how far we have come and where we want to go for the next decade. This collection reflects our new way of living by creating better for a better tomorrow. Focusing on the need of aesthetic, modern designs that meet the requirements of today; comforting, multi-purpose furniture crafted in forward-looking materials.

As the season changes, it means we want to spend more time indoors. We want to introduce textures and colours to add a sense of serenity to our home. As the boundaries blur between work, life and play, it is more important than ever to invest in pieces that transform the home into a sanctuary, whilst offering flexibility throughout the day.

The FW21 collection is a lesson in comfort, meant to find balance between the structured and the organic, work and life, and the outside world and our homes. In this Zuiver FW21 collection the unique mix of textures and materials

such as bouclé, jute, and bamboo in the colours natural, caramel, and terracotta, create an elemental space.

It speaks to all your senses with calming aesthetics and dusty, subdued style that fits any interior need. As we strive towards authentic living, with an emphasis on creating better, this collection encourages to make conscious choices.

"The collection is inspired by the ever-changing world and the need we have for flexibility within comforting surroundings, where it can perform as a personal sanctuary and still meet the requirements of today."

STEPS TOWARDS SUSTAINABILITY

As a front-runner in the furniture design field, Zuiver feels it's our responsibility to minimise our environmental and social footprint by exploring alternative materials and production methods. Last year, we sold over 350,000 products worldwide. Every single product we design and sell has some connection to natural resources.

"When we design, we design for the future – not only in how our products look, but also the wider impact they have. We need to rethink the decisions we make when it comes to resources. As a mum of three, I want my children and future grandchildren to grow up in the same world as I did." – Caroline van Velze, Creative Director

FIRST STEPS

We are not a sustainable brand. Up until now, Zuiver has taken first steps towards sustainability. Our global HQ is generating 30% of its own energy through solar panels, and within the coming years we are aiming for this to be 100%. We introduced the first sustainable product designs in our collection. In 2019, we presented our Thirsty chair, made of upcycled PET bottles. In 2021, we introduced a new conscious edition of our iconic Albert Kuip chair series, a bioplastic version containing 45% coffee residue. In our new fall/winter collection we introduce several new conscious designs; like the Good Plastic desk that is made of 100% recycled plastic and produced in the Netherlands, the Fan floorlamp that is made of renewable materials as bamboo and jute, and our Scape pillow series containing recycled denim and PET yarns.

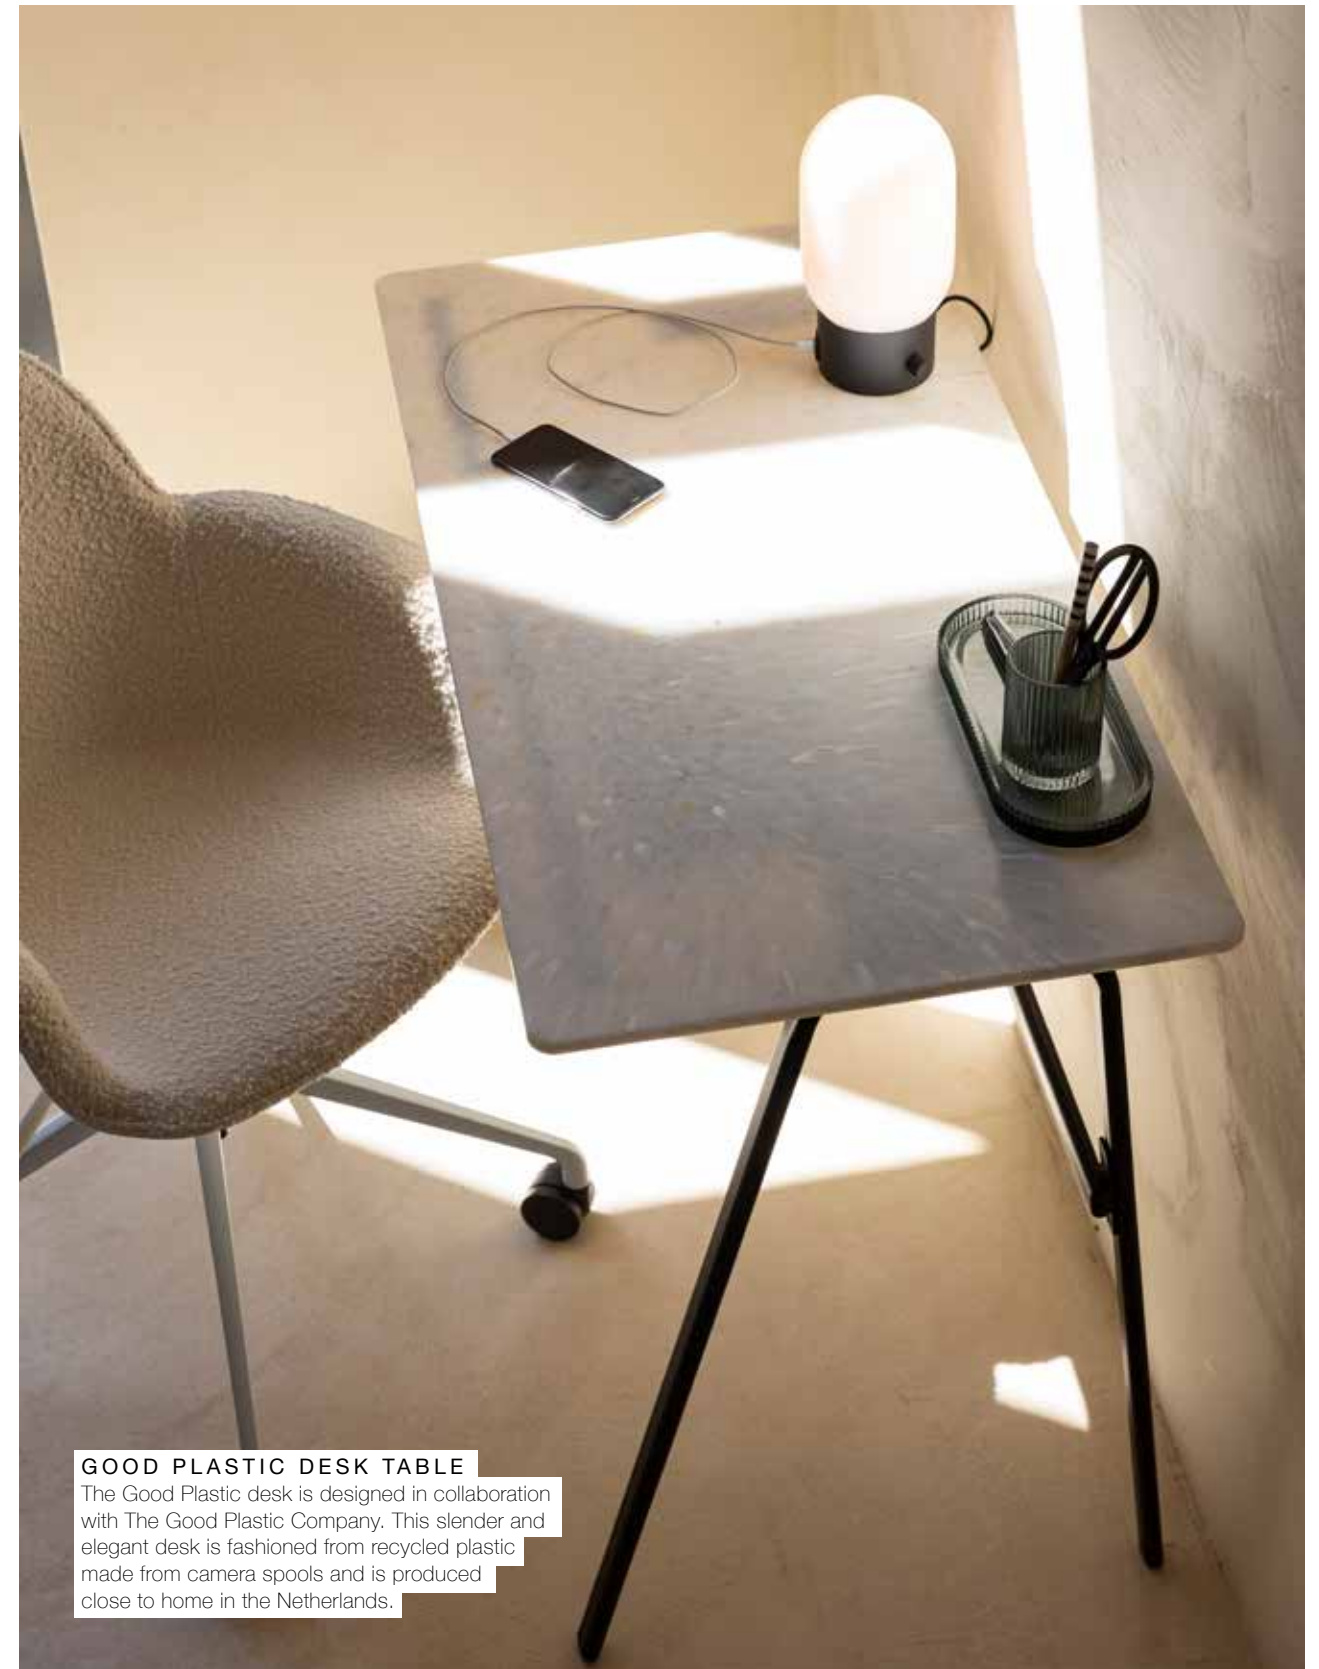

HELLO 2030

However, this is just the beginning. In 2030 we want to cut back the use of virgin- and non-renewable materials significantly in our collection. We are ready to make new choices in order to treat our planet with the utmost respect and to minimise our footprint. We believe that every step towards the goal counts just as much as the goal itself – and it's this progress that's one of our continued points of focus. In fact, our brand got its name from the Dutch word for "pure"; and it's with a pure (or transparent) sensibility that we begin our ongoing journey towards sustainability. Follow our website to be part of this journey.

ZUIVER GROUP GOALS

Zuiver is part of the Zuiver Group, a Dutch interior company. 'Spot on Responsibility' is our internal roadmap towards a responsible future of our company. The plan is based on the seventeen sustainable development goals (SDGs) of the United Nations (UNESCO, 2015), a global compass for the challenges of poverty, education and the climate crisis. The below goals will be initiated within and achieved by our entire brand portfolio by 2030:

- 49% less CO2 emissions compared to 1990
 - Significant reduction in virgin resources
- Fully recyclable and recycled packaging for all our brands
 - Product origin passport and material source information
- Excellent working conditions for all of our manufacturers' workers
 - Repair service and refurbishing program

GOOD PLASTIC DESK TABLE

The Good Plastic desk is designed in collaboration with The Good Plastic Company. This slender and elegant desk is fashioned from recycled plastic made from camera spools and is produced close to home in the Netherlands.

COFFEE CHAIR

SPRING/SUMMER COLLECTION 2021

ALBERT KUIP COFFEE CHAIR

Design: APE

The world drinks a lot of coffee. Over 2.25 billion cups are consumed daily worldwide and this produces an enormous amount of waste. This coffee residue is used for the shell of our iconic Albert Kuip chair, containing 42.5% coffee waste. But there is more. In our Albert Kuip chair series, we use natural oak wood legs, but when there is a discolouration or knot, we unfortunately have to reject and destroy that copy. But we found a solution: we now simply paint these misfits black and use them for this chair. So there you have it: our most sustainable chair so far.

Registered design
42,5% recycled coffeegrounds and 57,5% polypropylene shell
Solid ash wood legs

THIRSTY CHAIR

Design: APE

The shell of this pretty chair is made out of upcycled PET bottles that are saved from landfills in China. China is struggling with a huge amount of single-use plastic waste. Every chair contains up to 60 to 100 PET bottles. This design chair, frame included, is 100% recyclable and renewable. Now there you have a great bottle story! The Thirsty chair is the first action in Zuiver's sustainability mission; an initiative to minimize our environmental and social footprint by exploring alternative materials and production methods.

GOOD PLASTIC

DESK TABLE

SPRING/SUMMER COLLECTION 2021

GOOD PLASTIC DESK TABLE NEW

Today we give you more options for creating a home office or workspace that merges design and sustainability. The Good Plastic desk is designed in collaboration with The Good Plastic Company. This slender and elegant desk is fashioned from recycled plastic made from camera spools. These spools are broken down into chips, melted and pressed in a panel, which gives its unique colour and marble pattern, also known as marble of the 21st century. There is no adding of additives to the process, which makes the desk fully circular and can be therefore reused. The frame is made of steel, and it has a steel compartment to store your laptop, making it your ideal home-office partner.

100% recycled semi-matte polystyrene plastic tabletop
Black epoxy coated steel legs

LEKIMA LOUNGE CHAIR

Design: Simone Smelt

Memphis-inspired lounge chair Lekima was developed in collaboration with Simone Smelt, a design talent we were happy to invite for our scholarship programme. This pretty lounge chair was named after typhoon Lekima which struck a day after Simone arrived in China for the making of this seater. We admit that this name is a great contrast to the soft lines and friendly vibe this design lounge chair gives off. Lekima brings joy and creativity to every room, so we dare you to colour your home with this stunner.

FAN BAMBOO FLOOR LAMP

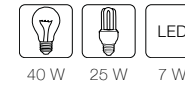

SPRING/SUMMER COLLECTION 2021

FAN BAMBOO FLOOR LAMP NEW

This stunning bamboo Fan floor lamp with a jute lampshade is made from strong, flexible and fast-growing bamboo. Once you cut bamboo, it will grow back, meaning you do not have to plant seeds again, and it produces more oxygen than trees. Combine this with a 100% organically jute lampshade, and you have our Fan floor lamp that suits any interior. Fan is dimmable and produces a soft light destined to bring a sense of restfulness and serenity to each and every room.

CREATIVE DIRECTOR'S CHOICE

RANI
PENDANT LAMP

RANI PENDANT LAMP

Design: Jasmijn Muskens

Are you picking up on that pleasant 80s vibe from pendant lamp Rani? We love it! This beauty was created in collaboration with young designer Jasmijn Muskens, whom we invited for our scholarship programme. Jasmijn likes to draw inspiration from the Memphis style, which also emerges in Rani. Rani comes in a pink version which hides the light source when not in use, and in a tinted glass version which gives the light source an aesthetic function. We love them both equally and leave the choice up to you. Good luck with that!

BREEZE OUTDOOR SOFA

The Breeze sofa is modular so you can build your ultimate outdoor sofa to fit your outdoor space. The backwards sloping cushions help to drain water into a small, clever gutter hidden away in the back frame. The high-tech material is water repellent and fast drying, so you don't have to stall the sofa indoors during winter or store the cushions inside every night. The sofa is made in Europe and comes in grey and anthracite.

Waterproof, antibacterial outdoor sofa with fixed cover
Mixed fabric upholstery (92% olefin, 8% polythylene)
38.000 Martindale, colour fastness 7-8
