FALL & WINTER 2022

COLLECTION

Make your interior complementary to your everyday, busy lifestyle. With this season's newcomers in the Zuiver collection, you can make your home the perfect retreat to reflect and escape from all the stimuli of the big, wide world. The upcoming fall and winter collections are characterized by a fine balance between clear lines, simple beauty, and soft comforting hues. Transforming your home into a comfortable hideaway. Be ready for the season to change.

“Now our lives are filled again with social gatherings and appointments, we urge for a multifunctional space where we can entertain ourselves, host dinner parties and enjoy life to the fullest. Yet also find a moment for ourselves and reflect on our hectic lives. Finding the right balance between these counterparts forms the fundament of the new Fall & Winter collections. Subdued colour schemes that help you to recharge, organic and friendly

silhouettes that feel comforting and united in honest and pure materials.” – Caroline van Velze, Creative Director

In the catalogue, we've indicated in which seasonal collection drop the new products are part of. So you know when these products are going to be available.

Products marked by this icon are part of the Fall collection will hit stores September 22nd 2022.

The Winter collection will go live November 29th 2022.

WHO ARE WE?

Zuiver [adjective] means 'Pure' in Dutch. 'Zuiver' to us means clean, pure and true designs for everyone, but not just anyone. Born in 2011 and rooted in Westzaan - a little village northwest of Amsterdam, The Netherlands - we believe that creativity makes the world more comfortable. Creativity can take the world to places we never imagined, but the most important place of all will always be home. Creating a safe haven, where you can calm down and be yourself. To make your own space as comforting as can be and evoke a sense of home. With our contemporary range of furniture, lighting and accessories we bring forward-looking materials, ideas and designs into any home. Tomorrow's designs for today's interiors.

TOMORROW'S DESIGNS FOR TODAY'S INTERIORS

SUSTAINABILITY

We are not a sustainable brand. Up until now, Zuiver has taken the first steps towards sustainability. We introduced the first sustainable product designs in our collection (indicated in this catalogue with a sustainability logo). In 2019, we presented our Thirsty chair, made of 60-100 upcycled PET bottles. In 2021, we introduced a new conscious edition of our iconic Albert Kuip chair series, a bioplastic version containing 42.5% coffee residue, and the Good Plastic Desk in collaboration with The Good Plastic Company. Recently we announced The Ocean Chair, made of 100% ocean plastic, which will be available this year. Follow our website to be part of this journey.

Zuiver is part of the Zuiver Group, a family of interior brands, driven by our desire to make spot-on interior products available to everyone. As a frontrunner in the furniture design field, we feel it's our responsibility to minimise our environmental and social footprint by exploring alternative materials and production methods. 'Spot on Responsibility' is our internal strategy that was introduced in 2019 in order to transform how furniture is made and (re)used. It outlines the actions we are taking to move our business, and the design industry as a whole, towards a more innovative and responsible future. We do this because resources are limited and for us, taking action on climate change and recognising human rights are non-negotiable. Every single product we design and sell has some connection to natural resources. We are ready to make new choices in order to treat our planet with the utmost respect and to minimise our company's social and environmental footprint.

CLIMATE-FRIENDLY CATALOGUE

Sustainability also applies to this Zuiver catalogue. Zuiver Group supports the climate initiative of the printing and media industries federations (bvdm) who offer their customers environment-friendly and climate-friendly print products. The Climate Neutral label guarantees climate neutrality, which means that we have calculated the carbon emissions inevitably generated in the process chain, and compensated its emission via recognized carbon offset projects. Projects, cofounded by the WWF too, such as: wind energy in Asia, reduction of smoke emissions and reforestation in Africa and landfill gas in South America.
